

Aurora, Sept. 18, 18

Mr. Geo. R. Himes

Portland, Ore.

Dear Mr. Himes

I herewith enclose a description of my work and a sort of introduction of myself to the public. I have not supplied any name but I presume you can do that if you will. You may rewrite the article if you wish to, but there is one thing that I would like to have you do, before having it published, ^{viz-} to show me a typewritten proof of whatever you make out for the Paper or Papers.

You can boil down the article or cut it up in any way but send me a copy before it is published and I will send you my approbation or disapproval.

Oblige yours. Truly
Gegoup.
