There are 1227 tracts, ranging from a half-acre tract in Newberg to 160 acres in remote regions. As many as 40 filings have been made on each of several of the choicest tracts." He said that while he was out in his garden at work, fire broke out in the old building, formerly the Jette saloon building, in which he had been living for the past two or three years and all that was saved was the above-named picture and another that he prized highly. His paint brushes and other artist's material, a violin of his own make, his clothing and a trunk full of keepsakes, all were consumed, and his voice faltered as he told of the loss of a portrait of his mother on ivory, the only one in existence. While he was in town C. A. Morris provided him with a new suit of clothes and Dr. Van Vain circulated a subscription paper and raised a purse to aid him in getting started again. Mr. Gegoux is an interesting character and many Newberg people have enjoyed visiting him at Champoeg.
